

PRINCE SULEKHIYA

Bhopal, India | +91 87708 66918 | princesulekhiya@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Full Stack Engineer with expertise in building scalable backend microservices using Java and Spring Boot, and responsive front-end portals with React and TypeScript. Skilled in securing and integrating REST APIs with JWT/Spring Security, containerizing applications with Docker, and deploying on AWS cloud services. Completed data science certification and experienced in integrating AI-driven components, seeking to advance AI-powered healthcare solutions.

EXPERIENCE

Cloud Nexus

Nov 2025 - Present

Software Development Engineer

Bhopal, Madhya Pradesh

- Developed and maintained backend microservices using Java (Spring Boot) on AWS and contributed to AI model deployment pipelines, resolving 20+ ticket-based bugs and feature requests per sprint.
- Resolved over 10 critical security vulnerabilities in Maven dependencies, reducing system exposure and ensuring stable operation post-upgrade.
- Managed centralized pom.xml dependency configuration, eliminating version conflicts across 10+ microservices.
- Built and tested Dockerized services on AWS Elastic Container Service before release, verifying startup, logging behavior, and stability.
- Followed Git-based agile workflows and authored clear pull requests, facilitating efficient code reviews by senior engineers.
- Integrated JUnit tests and static analysis tools into CI/CD pipelines, raising code quality benchmarks.

InnoBimb Infotech Pvt. Ltd.

Apr 2025 - Sep 2025

Junior Developer Intern

India

- Built and launched Kookit Admin Panel using React (Vite), Bootstrap 5, and React Router DOM, streamlining admin operations.
- Implemented JWT authentication and role-based access control (RBAC), securing the admin panel against unauthorized access.
- Integrated Axios REST APIs and optimized CRUD operations for user and device management, reducing data errors by 30%.
- Built real-time temperature charts and KPI dashboards, providing instant operational visibility for the ops team.
- Improved API integration efficiency by ~25% by collaborating with the backend team to streamline and optimize 8+ endpoints.
- Delivered responsive, cross-browser UI (Chrome, Firefox, Safari) for production-ready deployment.

PROJECTS

AssessHub

Feb 2026 - Mar 2026

- AI-Powered Technical Assessment Platform | Spring Boot, React, MySQL, Docker, Gemini API
- Built a full-stack assessment platform enabling role-based technical tests end-to-end for 50+ concurrent users (creation, attempt, submission, analytics).
- Integrated AI question generation (Gemini 2.5 Flash) to auto-generate up to 15 tailored MCQs per role, tech stack, and skill level in seconds.
- Implemented exam controls: fullscreen enforcement, shortcut blocking, timed submissions, auto-submit - significantly reducing malpractice.
- Developed JWT + 2FA authentication with 5 role levels (Admin, TL/TR, Trainee/Intern/PPO) and CSV analytics export for performance reviews.

MedExJob | medexjob.com

2025

- Deployed full-stack medical job portal on AWS using Spring Boot, React, TypeScript, AWS RDS, and EC2 instances to support 100+ healthcare professionals
- Implemented AI-driven resume analysis and job recommendation APIs with Google Gemini API and Spring Security/JWT, enhancing match accuracy and platform trust
- Built AI chat assistant and fraud detection system using Google Gemini API, improving job listing authenticity and platform trust.
- Designed role-specific dashboards (candidate, employer, admin) with Spring Security + JWT for enterprise-grade access control.

EDUCATION

Sagar Institute of Research and Technology (SIRT), RGPV University

2022 - 2026

Bachelor of Technology (B.Tech), Computer Science and Engineering

Bhopal, India

Shri Tagore Vidya Mandir

Higher Secondary Certificate, PCM

Kendriya Vidyalaya No. 2, Itarsi

Secondary School Certificate

SKILLS

- Languages:** Java, JavaScript (ES6+), TypeScript, C++, C, Python
- Frontend:** React.js (Vite), Angular (Basic), HTML5, CSS3, Tailwind CSS, Responsive Design
- Backend:** Spring Boot, Microservices, REST API Development, Spring Security, JWT Authentication
- Databases:** MySQL, PostgreSQL, MongoDB, AWS RDS, AWS DynamoDB
- Tools & DevOps:** Git, GitHub, Docker, Kubernetes (Basic), CI/CD Pipelines, JUnit, Axios, Amazon Web Services (AWS)
- Methodologies:** Agile, OOP, Data Structures & Algorithms, REST API Design, Problem Solving, AI Models

CERTIFICATIONS

- Web Page Designing & Development:** Issued by: MeitY & BECIL, Government of India · Completed: 2024
- Data Science Distribution (Anaconda):** Issued by: SAGE University (Winter School Program) · Completed: 2025
- Nexus Program: Development, Blockchain & DSA:** Issued by: Cloud Nexus · Certificate of Appreciation · 2025

AWARDS & ACHIEVEMENTS

- SAGE Influencer Award:** Recognized for outstanding contribution to the college tech and innovation community (2024)
- Branding Ambassador:** Sagar Institute of Research and Technology (SIRT), 2023 – 2024
